

Care Instructions:

Sage buttons can be cleaned safely using a mild detergent, water, and a soft cloth. They are waterproof for misting and wipe-clean methods.

Caution:

- Avoid submerging or soaking.
- Do not expose to high heat or abrasive cloths.
- Long-term exposure to aggressive agents can cause fading or material failure.

Need a replacement button?

Visit the Sage Support site and search for **Hardware Order Form** to order additional buttons and accessories.
