

Hello Sage!

We are delighted to announce the installation of Sage, a new state-of-the-art Nurse Call System, in our community!

With this system, our caring and professional team will now be able to respond more efficiently to your loved one's needs. We understand how important it is for you to know that your loved ones are in the safest and most caring hands, and with Sage, our community is now taking that commitment to the next level.

Help is Just a Click Away

Residents will receive new Sage pendants as well as call buttons installed in each bedroom and bathroom. The Sage devices allow residents and visitors to alert the care team when assistance is needed.

Sage helps caregivers efficiently monitor your loved ones' needs through updated mobile devices, enabling the team to track, capture, and respond to care requirements while staying connected and informed throughout their shifts.
